yunefy

Simplify fulfillment. Maximize growth with our unified platform.

Overview of Key Modules

Discover Yunefy features

- Inventory: Manage stock across all locations

- Warehouse: Optimize space and efficiency

- Orders: Streamline processing and fulfillment

- Shipping: Automate logistics for faster delivery

- Catalog: Centralize listings across channels

- Forecasting: Predict demand and plan

- Reporting: Gain insights, drive smarter decisions

Real–Time Inventory Management

Optimizing Your Warehouse Efficiency and Accuracy

- Real-time stock visibility across all channels

- Multi-warehouse and bin-level tracking

- Automated alerts to prevent stockouts

- Cycle counting for ongoing accuracy

Precision at Scale

Warehouse Management Solutions

- Receive and put away stock with accuracy

- Track inventory by bins, racks, and zones

- Use barcode/RFID scanning for speed

- Generate optimized picklists for efficiency

Precision at Scale

Orders Management Solutions

- Capture orders automatically or manually
- Apply smart rules to route, split, or tag
- Track real-time status across channels
- Generate picklists for faster fulfillment

Shipping Automation Solutions

Enhancing Delivery Efficiency

- Multi-carrier rate shopping for savings
- Label generation for quick processing
- Bulk shipping to reduce effort
- Returns simplified for customer convenience

One Source of Truth

Streamline Your Catalog Management Processes

- Centralized management for all product listings

- Effortless bulk edits for efficiency and accuracy

- Tailored listings for each sales channel

- Maintain consistency across all platforms

Forecasting and Planning Insights

Unlocking the power of data-driven forecasts

- AI-driven demand forecasts for accuracy
- Seasonality models to anticipate trends
- Replenishment insights for inventory optimization
- Enhanced planning for better resource allocation

Reporting and Insights Overview

Key Elements of Effective Reporting and Insights

- Dashboards provide clear visual data representation

- Alerts notify users of important changes

- Export options for flexible data sharing

- Data-driven actions enhance decision-making

  processes

Proven Impact on Fulfillment

Key Results from Our Satisfied Customers

- **Faster fulfillment** streamlined operations and reduced delays
- **Lower costs per order** with optimized logistics and resources
- **Higher accuracy** in order processing and inventory management
- Enhanced customer satisfaction through reliable delivery experiences
